100 GENTRY TEACHERS WILL ATTEND SESSIONS

Rural Teachers Required by Law to Come Here—Farm Institute Subjects Given Out.

The big week is here and the exhibits which the Nodaway County Agricultural and Domestic Science Association will offer to the people in connection with the meetings of the Teachers' Association and the Farm and Home Institute, have begun to arrive.

Manager Bert Cooper desires very much that no exhibits be sent, however, until Wednesday on account of the inconvenience in handling them so early. Two girls and three boys will enter the oratory and declamation contests at the Normal auditorium Friday night The program of that meeting will be announced tomorrow.

One hundred of the teachers are coming from Gentry county to meet with the Nodaway County Association. The Teachers Association is helping to pay for the speakers of the Farm and Home Institute, a fact which has not been generally known. All of the program is brought here by the Teachers' Association and the State Normal School.

A reception committee will be at the Linville hotel every day at which room and board at reasonable rates in private homes may be arranged for. All other information desired can be had by going to the reception committee there.

The entries for the exhibit contests number 904. That means that such a large number of children will contest for the various prizes of the Agricultural and Domestic Association. This assures a large crowd here the last three days of the week particularly.

The 253 teachers of Nodaway county are required by law to attend the sessions of the Teachers Association. Several have written in to ask if they could not attend the state meeting at Kansas City also if their school board will permit but that will not be accepted as substitute for the county meetings here Thursday and Friday of this week.

AUSTRIAN DEFENSE BROKEN

King of Italy Makes 50-Mile Aeroplane Flight—Is Fired at By Austrians.

Special to The Democrat-Forum.

Rome, Oct. 25.—The Italians report that they have shattered the Austrians' first line of defenses in nearly every sector, and in some cases have penetrated the second line of defenses. They are making their greatest effort along the Isonzo river and the Carso plateau.

The king of Italy made a fifty-mile aeroplane flight along the border, visiting the various headquarters. It is also reported that the aeroplane was fired at repeatedly by the Austrians but without damage.

MISS NIELSEN TOMORROW

TICKET SALE PICKING UP BUT NOT ENOUGH.

Star Will Go to Topeka From Here—What is Said About "Best Series."

Tomorrow night is Alice Nielsen night. And the indications now are that the First Methodist church will be packed to its capacity. Miss Nielsen was in Kansas City yesterday, which she calls home, after a tour of 118 concerts in 135 days, a record for grand opera stars.

The Kansas City Journal said in part concerning her yesterday:

Miss Nielsen is the wonder of her fellow artists. Miss Nielsen said modestly that she had enjoyed every minute of it, and had finished her tour with her voice and herself in tip-top shape.

"It is my vitality," she explained. "I have an abundance of reserve force. I wouldn't like to repeat the experience right away, for it is the sort of thing one does only once in a lifetime. It is something to have accomplished."

The former star of the Boston Opera company is booked to sing in nearby towns, one of her engagements being at Topeka on Wednesday.

"So I am using Kansas City as headquarters," she said. "I come here whenever I can. I love this place so well that—speaking without affectation—a lump rises in my throat whenever I can find the time to spend a few days here."

The ticket sale is becoming more brisk, but is far from being satisfactory to the committee. The following is from a Waterloo, Ia., paper concerning a concert of the C. W. Bests Artists' Series, which will appear on the Maryville course:

"The first of the C. W. Bests Artists' Series of three concerts, which was given last night at Grace Methodist church, proved to be a delightful affair and was well attended in spite of the bad weather. The work of Signor Alberto Salvi on the harp was wonderful, and the talented Venetian was obligated to respond to several encores.

"Miss Florence Hedstrum sang a variety of beautiful songs in a rich soprano voice which elicited much applause, and the violin selections given by the English artist, Miss Marguerite Austin, merited approval. Not only were the artists appreciated as soloists, but their concert work was a feature of the evening, and the committee in charge of the entertainment deserves commendation."

SELF-RULE ASKED

HIGH SCHOOL BOYS WANT VOICE IN AFFAIRS.

REQUEST TO BE GRANTED

Apologies of All Except Baker Made and Accepted—No Form Letter Acceptable.

A measure of student self-government for the pupils of the Maryville high school is being agitated by some of them today. The desire is particularly strong among the thirty-eight who apologized in writing this morning to Superintendent Westbrook and George P. McGrew, principal of the high school.

A suit for pardon was handed in by each of the above boys. It had been planned at first to hand in a joint apology but it was discovered by rumor that such would not be accepted so the youths all copied from a form agreed upon but these were also rejected; then the thirty-eight got their creative brains to work individually and pardons satisfactory to the administration were written and accepted.

The form read:

"I hereby apologize for my actions of Friday, October 22. May I venture to suggest, however, the earnest desire of myself and also of all concerned in the hasty and regretable affair of the day, that steps may be taken for obtaining a better understanding between students and administration, and that a way may be found in the future for us to express complaints and dissatisfaction preferable to the method of objectionable conduct."

Those of the boys who were talked to said that their desire for some form of student council or senate was not because of any deep dissatisfaction or in order to rule their own affairs so much as it was that they might have an authoritative head to speak for them on all occasions.

Most of the large high schools of the state now give a greater or less degree of voice in their management to the pupils. The students here say that the Maryville high school is large and progressive enough to do the same. Not that they would have a final word, but that minor discipline and recommendations of greater punishment might be made by a student council.

But the boys insist that this is not the major consideration, but that a desire to have some head, some definite chairman of the students to speak for them whenever an approach is made to the faculty or administration is what is most desired.

Mr. Westbrook and Mr. McGrew have been working on a similar plan since the beginning of this year by which representatives of the classes or from the various clubs would for a student council. Mr. Westbrook said today that he thought it probable that such an organization would be put into effect in the Maryville high school soon.

Myron Baker has not yet made his apology to the school, and is therefore still under suspension. Mr. Westbrook said this morning that he felt that some injustice may have been done him in the minds of those who possibly inferred that he spoke harshly or abusively to Baker. He states that nothing was said to Baker except a firm insistence upon proper respect, and that the "conversation" was really a monologue on the part of Myron.

DR. D. C. WILSON UNIMPROVED.

Maryville Physician Lying at the Point of Death in California.

The latest reports from the Wilson family at Los Angeles, Cal., regarding the condition of Dr. D. C. Wilson, who is critically ill, is that he is unimproved and in a very precarious condition.

Dr. Wilson and his wife and daughter are at Balboa, and Mr. and Mrs. R. S. Braniger of this city are with them at present. On account of the serious condition of Dr. Wilson the Branigers remained there to give what help they could. A report of the death of Dr. Wilson was circulated here this morning, but it is untrue. His condition, however, is extremely critical.

A PREPAREDNESS SERMON

Rev. R. C. Holliday Makes Effective Talk at Buchanan Street Methodist Church Last Night.

The Rev. R C. Holliday, pastor of the Buchanan Street Methodist church, preached on "Preparedness" last night. His text was "Put on the whole armor of God." As an introductory to his sermon he spoke for some time on the military "preparedness" propaganda of the present time.

"I do not flatter myself," he said, "that I am able to discuss this question with some of the great minds who will give it consideration in congress, and who are now talking upon both sides. But I do not hold with either of the extremes of the big navy men or the pacifist type.

"When I hear of defense plans, I cannot but ask myself constantly from whom we must defend ourselves. Whom has the United States to fear? I cannot see that any of the European nations will be able to attack the United States within a generation.

"Neither do I believe that a system of roads so that every farmer in his Ford could get to the coast in a few days would be sufficient protection. It is the duty of every man and every nation to protect itself, not that he is dangerous but that the other fellow may be.

"Our fire department may not have a call for thirty days, but if kept in readiness it may save the business blocks from destruction on the thirty-first day. I lock my house every night, not that I have anything valuable, but lest some thief might think that I have. That is my idea of preparedness, that we have the door locked against invaders."

In the body of his sermon Mr. Holliday urged a spiritual preparedness of the same sort against temptation and for opportunity. He said many men went to hell not because of any great sins necessarily, but simply because they were not prepared at death for heaven.

MR. BAKER RESIGNS

AS MEMBER OF THE STATE HOSPITAL BOARD OF MANAGERS.

LINDSAY AND PENNEY

Also Hand in Their Resignations—Too Much Outside Interference in the Management of Institution.

George B. Baker, president of the Real Estate bank of this city, resigned this morning as a member of the board of managers of state hospital No. 2, at St. Joseph. His resignation was sent to Governor Major by wire.

Two other members of the board of managers also resigned, being Ernest M. Lindsey of St. Joseph, the Republican member who was appointed by Governor Major about a year ago, and Smith Penney, also of St. Joseph. Both Messrs. Lindsay and Penney resigned at the request of the governor.

It has been known for some time that there was too much outside interference in the management of the institution, and the attempt of the governor, so it is said, of trying to inject politics. The institution is reported to be in a deplorable state. Many of the appointees of the hospital were selected at the request of the governor.

Mr. Baker has been a member of the board for over two years, having been appointed by Governor Major. He gave a great deal of his time to the management of the institution, and took a great interest in his work.

The following is Mr. Baker's resignation:

"October 25, 1915.—Governor Elliott W. Major, Jefferson City, Mo.: Having seen your recent letter requesting the resignation of Smith Penney of the asylum board, and feeling that the letter unjustly reflects on the whole board, and having served with Messrs. Penney and Lindsay as members of the board and from the close relations of these gentlemen and myself as fellow members, and having the utmost confidence in the honor and integrity of each of these gentlemen, and feeling that they, as members of the board, have conscientiously labored to conduct the business of the asylum along the line of honest business principles, and realizing that these gentlemen and myself have been in strict accord and harmony in our opinion as to the management of the asylum, I feel that the objections to these gentlemen contained in your letter apply with equal force to my conduct as a member of the board

"Therefore, I fell it incumbent on me to resign as a member of this board, and I hereby tender to you my resignation as a member of the board of state hospital No. 2, to take effect immediately. GEORGE B. BAKER."

BIG FIRE AT CLEARMONT

GRAIN ELEVATOR AND 60 TONS OF COAL BURNED.

Burlington Railroad Loses Two Box Cars—D. W. Carter of Iowa and A. H. Garrett Lumber Co. Losers.

The grain elevator at Clearmont, together with about $1,000 worth of grain, owned by D. W. Carter of Pepburn, Ia., and between 50 and 60 tons of coal belonging to the A. H. Garrett Lumber company of Clearmont, was burned about 2:30 o'clock Sunday morning. One box car of the Burlington was also burned and another one filled with railroad ties was partially destroyed.

The origin of the fire is unexplainable. No one had been in the elevator since early in the evening, and no fire had ever been in the place. The building was erected eighteen months ago.

The fire was discovered by some section men who were at work there and who were sleeping at nights in a box car. They at once notified the telephone operator and others who worked to save what property they could. The elevator was almost completely destroyed before the fire was noticed.

CORY AND PAUL GREAT LEADERS

MEETING AT CHRISTIAN CHURCH OF MIGHTY POWER.

MEN AND MILLIONS BORN OF PRAYERS

Mrs. F. P. Robinson Sings Two Songs by Request of Mr. Cory—Spirit of God and War Contrasted.

Two men of national prominence in religious affairs and acknowledged as leaders in the new Republic of China were in Maryville yesterday. Alexander Paul, who first conceived of the Men and Millions movement, and "Abe" Cory, the Maryville boy who has made it successful and the greatest thing ever undertaken by a Protestant denomination, spoke yesterday. The other speakers were Mrs. Mary Lawrence on home missions and Dr. H. M. Bell, president of Drake University who dwelt upon educational needs.

No public collection was taken but private conferences will be held all this week. The minimum pledge which the organization will take is $500 for a period of five years.

A meeting of the women of the church was held this afternoon. A luncheon will be served to the young men of the church between the ages of fifteen and twtnty-five Wednesday afternoon at 6 o'clock which will be followed by a general meeting of all the men of the church.

At the services yesterday morning Mrs. F. P. Robinson sang two solos by special request of Mr. Corey. The first was "The Home Land." The second sung while all were bowed in prayer at the conclusion of the sevrice was "Ere you left your room this morning, did you think to pray?"

Mr. Paul, the first speaker, is the missionary who organized 7,000 famine sufferers into a labor army and built a dike which saved hundreds of thousands of acres from flooding in China. He conceived of the great Men and Millions Movement. Mr. Cory frankly admitted that he thought that the typhoid had gone to Paul's head when he first mentioned the subject as Mr. Paul was just convelscing at the time.

"Give 'Em Hell.

Rev. Paul was on his way back to China after a leave of absence to visit his parents in a village in Ireland. He said that 90,000,000 millions of the Orient were just coming to feel themselves and that the next great crisis must come among those people. Will they accept Christ along with civilization or will they do like Japan and accept all modern ideas and customs but reject Christianity?

Mr. Paul said that just before he left Ireland a month ago, he went up to Belfast to see the troops depart. As a train would pull out the crowds would cheer under a yell leader. After a "Good-bye Fellows" the leaders would say "One, two, three," and from the throats of tens of thousands would go a bellow or hate, "Give 'em Hell."

"A few days later," Mr. Paul said, "I went home to say my last good-ye to my parents whom I shall never see again as each is more than 80 years old. Putting their arms about me, they said: 'Good-bye, Alec, we are giving you back to China. Go back. Give them Christ.'"

Announcement.

We are authorized to announce Robert I. Young of Buchanan county, as a Democratic candidate for Congress from the Fourth district subject to the primary election to be held August 8, 1916.

Republican leaders seem to be getting little comfort and lots of uneasiness out of these big get-together meetings that are being held by Missouri Democrats.

Those Arizona people who want to recall their governor would better go slow. Governor Hunt is an ex-Missourian and will want to be shown before he gives way.

When the next campaign is on and the Republicans start in trying to stampede the voters back to the protective tariff doctrine they are likely to run against several large sized snags. One of these will be the opposition of those far-sighted manufacturers who have found how valuable foreign markets are and who have sense enough to know that they cannot be retained if we return to the foolish policy of barring other nations from trading with us by erecting a high tariff wall. Western farmers could not buy eastern manufacturers if eastern manufacturers did not buy their farm products, and the world won't buy our stuff unless we are willing to make fair exchange with them.—The Commoner.

Old Kentucky No. 1.

CORY AND PAUL GREAT LEADERS

(Continued from page 1.-

Scarcely an eye in the house was dry as Mr. Paul so telling showed the difference between missions and war between the spirit of God and that of Mars.

Mr. Cory told of how he opposed the movement in his infancy. He said that the devil did not get many men any more by their being drunkards and adulterers. Respectability alone prevented that now. But Satan does get them by just telling them to go slow.

Born of Great Intercession.

"It is hard for me to stand before this people and see boys with whom I grew up," said Mr. Cory. "In other men I see gray hairs on heads which I have reverenced all my life. You all know that I am very human with frailties. But how I long that you may really know that there is no taint of pietism when I say that this movement which I represent was born of God out of great intercession.

"The church must quit playing at little things. The men who will borrow money to make himself rich ought to borrow money to enrich the kingdom of God. There is no such thing as a cool, hard-header business man. That kind of men don't get great success. Men of vision and imagination succeed.

"R. A. Long, the man who gave a fillion dollars, was tithing when he was getting $28 a week as a lumber clerk. And he tithes his property yearly as well as his income."

Mr. oCry spoke at length upon his experiences in the Men and Millions movement. He said that we are living in a great and terrible age. A man who is alive must face the responsibity of that life.

The church was decorated with mottoes and maps. Some of the striking ones were: "God wants no tyours but you. Not how much of my money shall I give to God but how much of God's money shall I keep for myself. This is the only generation we can reach. The first work of the whole church is to give the gospel to the whole church."

Pearl Roach of Maryville was on the St. Joseph market Saturday.

BIG BURLINGTON ENGINES

Locomotives Ninety Feet Long and as High as Bridges Permit Being Built.

The locomotives used today in the through passenger service, are required to haul trains which are often as heavy as the freight trains of a comparatively few years ago. These trains are hauled at high speeds, on exacting schedules. Locomotives for such service must not only be of sufficient size to develop the required power; they must also be economical in fuel and water consumption, and must not deliver destructive blows to the tracks and bridges when running at high speeds. An efficient self-propelled power plant is required, and high engineering skill is necessary to produce it.

The new S3 engines just placed in service by the Burlington, represent the latest development of the Pacific type for heavy passenger service. These engines appear to be the embodiment of power and strength and impress one by their wonderful size. Built as high as they can be and negotiate bridges, the parts above the boiler on the outside are made as low as possible to obtain the results needed and remain within the prescribed height to meet bridge requirements. The whistle protrudes from the side of the dome instead of the top on account of the height of the boiler. The stack is squat and broad and the bell while of average size, seems smaller because of the massiveness of the boiler.

These engines are of the super heater type, thus providing fuel economy and a lesser amount of steam than does by the older and more common type of engines using the saturated steam system. The boiler pressure, because of the super heater construction, is but 180 pounds of steam ,an amount that many of the smaller engines carry A number of new and late devices for conservation of motive power, greater speed, etc., are seen on these engines.

These monsters are over 75 feet long and, ready for service, weigh upward of half million pounds. A six foot man, wearing a silk hat, could stand erect in the little end of the boiler and a good-sized barrel could be placed inside of one of the immense cylinders.

These great power units were built by the Baldwin Locomotive Works, Philadelphia, to pull the Burlington's crack limiteds. No one knows how fast they will run. But one of them will draw a long heavy train of Pullmans at a sustained speed of 60 miles an hour, without much more concern than a youngster pulls a toy wagon down the street. There is ample reserve power to insure the punctual maintenance of schedules, even under adverse weather conditions.

Prepare Bees For Winter.

Remove honey at once.

Leave plenty of winter food.

Don't spill or smear honey about the hive. It leads to robing.

Don't chill the bees while clearing the supers. Choose warm days for this work.

Wrap each hive with a layer of tar paper or other heavy, wind-proof material.

If any supers are left on the hives, remove the sections and fill the space with a bag of dry leaves.

Set the hives on a south slope and do not leave the front high enough to let snow or water blow or run in.

The bee house or cellar is rarely or never used as far south as Missouri. A strong swarm properly prepared in a good hive and properly fed will get through the winter well.—L. Haseman University of Missouri, College of Agriculture.

The Store That Is Anxious to Please You

WABASH FILES CHARTER

E. A. Kearney of St. Louis Heads New Company—Capital Stock is 143 Millions.

Indianapolis, Ind., Oct. 23.—A charter for the new Wabash Railroad company, the purpose of which is to take over all the Wabash railroad property now in the hands of receivers, was filed with the secretary of state here today. The capital stock of the new company was placed at $143,460,000, and a fee of $143,460 was paid to the state.

At a meeting of the directors held here Edward F. Kearney of St. Louis, president and co-receiver, was elected president of the new company. The directors are: Samuel Armstrong, H. Bruce Campbell, Robert Goelet, Lawrence Greer, Edward F. Kearney, W. C. Maxwell, George W. Murray, Robert N. Neilson, John C. Otteson, Winslow S. Pierce, Lyman Rhodes, William V. Stuart and James E. Taussig, Allison E. Stuart and Henry Rogers Winthrop. William V. Stuart of Lafayette, attorney for the company in Indiana, filed the charter.

W. C Maxwell of St. Louis, the director named above, is general traffic manager of the Wabash. John C. Otteson is secretary of the company, with office in New York. James E. Taussig is assistant to the president, with office in St. Louis.

State May Interfere.

Jefferson City, Oct. 23.—The question whether the new Wabash railroad corporation, which it was announced would incorporate today in Indianapolis, can take possession and operate its property in Missouri under the terms of a law enacted by the legislature in 1913, has been under discussion here. That legislature enacted a law requiring all railroads operating in Missouri to incorporate in this state. Governor Major, before signing the law, put an executive construction on it, to the effect that it did not apply to railroads already operating in Missouri, but only to future railroads. He approved the law April 16, 1913.

It is suggested here that if the Wabash company is a ne wone organized to take over the old Wabash properties, that the Missouri law might prove an obstacle unless declared unconstitutional.

SERVICES TO CONTINUE.

Revival at Palestine Church to Last Another Week—Has Veen Very Successful.

After preaching three weeks at Palestine church, twelve miles southwest of Maryville, Elder S. D. Harlan, encouraged by unanimous vote of the people of the community last night, decided to continue another week. Fifteen have been added to the church, nearly all of whom were boys and young men of the Sunday school. Those who have kept the Sunday school going the past three years and have sometimes asked themselves the question, "Does it pay," now feel greatly encouraged and say, "It is surely worth while."

Baptismal services were conducted yesterday, song service was announced for 7:45 last night, but the church filled and the choir began to sing at 7:15. The church was packed and it is estimated that from 75 to 100 people had to remain outside. Twenty-seven automobiles lined up outside.

Great things are expected the coming week. The song service led by Theodore Snowberger adds much interest and enthusiasm to the meeting. Elder Harlan preached with his coat off, preached a powerful sermon on "The New Testament Church." His subject for tonight is "The Prodigal Son."

The Rev. G. S. Cox, pastor of the First Methodist church read the marriage ceremony, which was witnessed by Mr. and Mrs. R. C. Anthony and sons, Edwin, Frank, Paul and Herbert, Mrs. O. G. For First "Mum" Bride.

One of the prettiest of the pre-nuptial courtesies being showered upon Miss Mildred Robinson, the daughter of Mr. and Mrs. Frederick Paul Robinson, who will be an October bride, was the tea given Saturday afternoon from 3 to 4 o'clock at the Elks club, by the "Mum" club. The occasion was one which carried with it much sentiment for the reason that the "Mum" club was formed here during the girlhood days of the bride's mother with herself and a small coterie of girl friends as members and Miss Robinson is the first "Mum" daughter to be a bride. The tea was given in the reception and tea room of the club house which was very attractive in decorations of white and green. White hydrangeas were used in the reception room and here the guests were received by Mrs. C. C. Graves, Miss Jennie Garrett, Mrs. William Johnston, Mrs. F. P. Robinson and Miss Robinson. The tea table was spread with a cluny cloth and in the center was an immense mound of shaggy white chrysanthemums. Mrs. James B. Robinson and Mrs. Charles T. Bell served, assisted by Miss Bertha Beal, Mrs. Luther Forsyth, Miss May Orear and Mrs. Ralph Eversole. At the conclusion of the tea, Miss Robinson was presented with an exquisite crystal table service, the gift of the "Mum" members and the men of the old crowd which included C. C. Graves, Luther Forsyth, Ralph Eversole and Paul Sisson. In presenting the gift, a toast, written by Miss Garrett, was read by Mrs. William Johnston of Seattle, Wash., a former member of the club who is here now on a visit. The toast is as follows:

"Here's to Mildred, the girl of the hour,
For whom many fond friends have given a shower.
Is it any wonder why she is so gay,
When 'tis only a week 'till her wedding day?
We always have loved her as one of our own,
And now that she is to have her new home
A crystal table service we wish to present,
From the old crowd club with good wishes sent.

WANT "GYM" DOWN TOWN

Committee on Rules and Organization to Report Next Sunday—Junior and Senior Teams.

The permanent organization of a Sunday school athletic league was assured at a meeting of the representatives of the various schools in the Commercial club rooms yesterday afternoon. The need of a Y. M. C. A. was hinted several times by those present, and such an eventuality may grow from the movement.

Those present were: Superintendent W. M. Westbrook, Baptist church; C. C. Bennett, First Methodist; W. E. Wakeman, Martin Lewis, Jr., and Rev. W. M. Case, Presbyterian; Ed Gray and B. A. Frost, Christian; I. B. Williams and Vernon Nash, Buchanan Street Methodist church.

I. B. Williams was made permanent chairman of the committee. Discussion of a place where basket ball games could be held was the first order of the day. It was voted to exhaust every possibility in the way of a building to be used for a gymnasium situated in the center of the city before entering any negotiations for the use of the Normal gymnasium.

B. A. Frost and C. C. Bennett were appointed a committee to investigate all the available buildings and to report on whether they were suitable and could be secured. In case such a gymnasium is found, little doubt is held but that the high school team would also use it.

Informal discussion developed the belief among some of the men that an organization similar to a Y. M. C. A. or a Young Men's Christian Association in fact might be organized to manage such a building and organization.

The delegates will go before their schools to ask for authority to form a permanent league. Meanwhile a committee working with a chairman will draw up tentative plans for the organization, including a constitution. The committee is W. E. Wakeman and Ed Gray, with Mr. Case in an advisory capacity.

Mr. Case had charge of a similar association in Caldwell, Idaho, and will be able to give valuable advice. One of the new developments of the discussions yesterday was the probability that junior teams for younger boys would be found desirable and necessary also.

The committee of the whole will meet again next Sunday afternoon in the Commercial club rooms, at which reports will be heard and a permanent organization entered into, subject to the ratification of the various Sunday schools.

All of the men on the committee will welcome any suggestions as to form of the organization, methods of reaching an eligibility list, referee problems and the like. The rules and tentative organization committee will meet tonight at 8 o'clock in the Commercial club rooms.

Provision will be made in the constitution for all kinds of athletics.

LARGE CROWD AT ALBANY.

Big Leaguers Attract 1,600 to Albany, Bethany Beating Stanberry 4-1.

A crowd of about twenty-five went from here yesterday to Albany, where Stanberry and Bethany met in another ball game, in which most of the players were big or ex-big leaguers. "Babe" Adams, leading pitcher of the Pittsburg Nationals, pitched the winning game for Bethany.

Pat Ragan of the Boston Braves was the loser because of his wildness. Joe Crips of the Kansas City Blues caught Adams. Bill Borden of the St. Louis Feds was one of the stars. Otto Williams, a former Cub, was another player, and Eddie Noyes, once a big leaguer, slapped out the only long hit, a three-bagger on Adams, and scored the only run for Stanberry on a passed ball a moment later.

The Albany town band furnished music for the day, which attracted fans from all over northwest Missouri. Almost all of the 1,600 were there in cars, and the auto show was almost as good as the ball game.

GOOD SOLOS AT CONCERT.

Miss Wray and Ed Rea Pleased Audience Yesterday.

The audience at the band concert yesterday were well pleased. So much so that they demanded several encores. Edward D. Rea gave the "Traumerei" upon the cello, and "The Rosary" as a return. He was forced to play it over again at its close. Miss Hilda Lahr was his accompanist.

Miss Nellie Wray's solos were also well received. She was accompanied by Miss Lucile Airy. In spite of the good weather, which kept many from attending, the size of the audiences is growing each Sunday afternoon.

TRY "CASCARETS" FOR LIVER AND BOWELS IF SICK OR BILIOUS

Tonight! Clean Your Bowels and Stop Headache, Colds, Sour Stomach.

Get a 10-cent box now.

Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and bad colds—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels, or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

100 GENTRY TEACHERS WILL ATTEND SESSIONS

Rural Teachers Required by Law to Come Here—Farm Institute Subjects Given Out.

The big week is here and the exhibits which the Nodaway County Agricultural and Domestic Science Association will offer to the people in connection with the meetings of the Teachers' Association and the Farm and Home Institute, have begun to arrive. Manager Bert Cooper desires very much that no exhibits be sent, however, until Wednesday on account of the inconvenience in handling them so early. Two girls and three boys will enter the oratory and declamation contests at the Normal auditorium Friday night The program of that meeting will be announced tomorrow.

One hundred of the teachers are coming from Gentry county to meet with the Nodaway County Association. The Teachers Association is helping to pay for the speakers of the Farm and Home Institute, a fact which has not been generally known. All of the program is brought here by the Teachers' Association and the State Normal School.

A reception committee will be at the Linville hotel every day at which room and board at reasonable rates in private homes may be arranged for. All other information desired can be had by going to the reception committee there.

The entries for the exhibit contests number 904. That means that such a large number of children will contest for the various prizes of the Agricultural and Domestic Association. This assures a large crowd here the last three days of the week particularly.

The 253 teachers of Nodaway county are required by law to attend the sessions of the Teachers Association. Several have written in to ask if they could not attend the state meeting at Kansas City also if their school board will permit but that will not be accepted as substitute for the county meetings here Thursday and Friday of this week.

Topics of Institute Speakers.

President Ira Richardson of the State Normal School has announced the subjects of the speakers which were not already made public:

Wednesday morning: Mr. Childers, "Soil Fertility;" Mr. Talbert, "Insects Injurious to Field Crops;" Mr. Weaver, "The Brood Sow and Her Litter;" Mr. Weaver will also speak that morning on "Rations for Fattening Hogs," if there is time. If not the talk will be given Wednesday afternoon preceding the tractor demonstrations.

Thursday morning: Mr. Childers, "Tillage and Cultural Methods." Miss Kneeland will speak and President H. J. Waters will give the principal address of the morning.

Thursday afternoon: Mr. Talbert, "Farm Practice in Relation to Insect Control;" Mr. Childers, "Legumes and Their Uses." President Waters will speak again and J. Kelley Wright's illustrated lecture "Missouri" will be given that evening.

Friday morning: Mr. Talbert, "Insect Pests of Household and Stored Products;" Mr. Gromer, "Community Plans;" Mr. Coburn, "Some Consideration of the Hog."

Friday afternoon: Mr. Childers, "Manures and Fertilizers;" Mr. Coburn "The Enchanted Herb, Alfalfa." The women will hold a special session Friday afternoon, also Saturday.

Saturday morning: Mrs. Meredith, "Community Ideals;" Mr. Gromer, "Rural Credit." Saturday afternoon: Mr. Talbert, "Insect Pests of the Orchard;" Mr. Childers, "Crop Rotation;" Mr. Kinnaird, "Tile Drainage."

King of Italy Makes 50-Mile Aeroplane Flight—Is Fired at By Austrians.

The king of Italy made a fifty-mile aeroplane flight along the border, visiting the various headquarters. It is also reported that the aeroplane was fired at repeatedly by the Austrians but without damage.

MISS NIELSEN TOMORROW

TICKET SALE PICKING UP BUT NOT ENOUGH.

Star Will Go to Topeka From Here—What is Said About "Best Series."

Tomorrow night is Alice Nielsen night. And the indications now are that the First Methodist church will be packed to its capacity. Miss Nielsen was in Kansas City yesterday, which she calls home, after a tour of 118 concerts in 135 days, a record for grand opera stars.

The Kansas City Journal said in part concerning her yesterday:

Miss Nielsen is the wonder of her fellow artists. Miss Nielsen said modestly that she had enjoyed every minute of it, and had finished her tour with her voice and herself in tip-top shape.

"It is my vitality," she explained. "I have an abundance of reserve force. I wouldn't like to repeat the experience right away, for it is the sort of thing one does only once in a lifetime. It is something to have accomplished."

The former star of the Boston Opera company is booked to sing in nearby towns, one of her engagements being at Topeka on Wednesday.

"So I am using Kansas City as headquarters," she said. "I come here whenever I can. I love this place so well that—speaking without affectation—a lump rises in my throat whenever I can find the time to spend a few days here."

The ticket sale is becoming more brisk, but is far from being satisfactory to the committee. The following is from a Waterloo, Ia., paper concerning a concert of the C. W. Bests Artists' Series, which will appear on the Maryville course:

"The first of the C. W. Bests Artists' Series of three concerts, which was given last night at Grace Methodist church, proved to be a delightful affair and was well attended in spite of the bad weather. The work of Signor Alberto Salvi on the harp was wonderful, and the talented Venetian was obligated to respond to several encores.

"Miss Florence Hedstrum sang a variety of beautiful songs in a rich soprano voice which elicited much applause, and the violin selections given by the English artist, Miss Marguerite Austin, merited approval. Not only were the artists appreciated as soloists, but their concert work was a feature of the evening, and the committee in charge of the entertainment deserves commendation."

SELF-RULE ASKED

HIGH SCHOOL BOYS WANT VOICE IN AFFAIRS.

REQUEST TO BE GRANTED

Apologies of All Except Baker Made and Accepted—No Form Letter Acceptable.

A measure of student self-government for the pupils of the Maryville high school is being agitated by some of them today. The desire is particularly strong among the thirty-eight who apologized in writing this morning to Superintendent Westbrook and George P. McGrew, principal of the high school.

A suit for pardon was handed in by each of the above boys. It had been planned at first to hand in a joint apology but it was discovered by rumor that such would not be accepted so the youths all copied from a form agreed upon but these were also rejected; then the thirty-eight got their creative brains to work individually and pardons satisfactory to the administration were written and accepted.

The form read:

"I hereby apologize for my actions of Friday, October 22. May I venture to suggest, however, the earnest desire of myself and also of all concerned in the hasty and regretable affair of the day, that steps may be taken for obtaining a better understanding between students and administration, and that a way may be found in the future for us to express complaints and dissatisfaction preferable to the method of objectionable conduct."

Those of the boys who were talked to said that their desire for some form of student council or senate was not because of any deep dissatisfaction or in order to rule their own affairs so much as it was that they might have an authoritative head to speak for them on all occasions.

Most of the large high schools of the state now give a greater or less degree of voice in their management to the pupils. The students here say that the Maryville high school is large and progressive enough to do the same. Not that they would have a final word, but that minor discipline and recommendations of greater punishment might be made by a student council.

But the boys insist that this is not the major consideration, but that a desire to have some head, some definite chairman of the students to speak for them whenever an approach is made to the faculty or administration is what is most desired.

Mr. Westbrook and Mr. McGrew have been working on a similar plan since the beginning of this year by which representatives of the classes or from the various clubs would for a student council. Mr. Westbrook said today that he thought it probable that such an organization would be put into effect in the Maryville high school soon.

Myron Baker has not yet made his apology to the school, and is therefore still under suspension. Mr. Westbrook said this morning that he felt that some injustice may have been done him in the minds of those who possibly inferred that he spoke harshly or abusively to Baker. He states that nothing was said to Baker except a firm insistence upon proper respect, and that the "conversation" was really a monologue on the part of Myron.

DR. D. C. WILSON UNIMPROVED.

Maryville Physician Lying at the Point of Death in California.

The latest reports from the Wilson family at Los Angeles, Cal., regarding the condition of Dr. D. C. Wilson, who is critically ill, is that he is unimproved and in a very precarious condition.

Dr. Wilson and his wife and daughter are at Balboa, and Mr. and Mrs. R. S. Braniger of this city are with them at present. On account of the serious condition of Dr. Wilson the Branigers remained there to give what help they could. A report of the death of Dr. Wilson was circulated here this morning, but it is untrue. His condition, however, is extremely critical.

A PREPAREDNESS SERMON

Rev. R. C. Holliday Makes Effective Talk at Buchanan Street Methodist Church Last Night.

The Rev. R C. Holliday, pastor of the Buchanan Street Methodist church, preached on "Preparedness" last night. His text was "Put on the whole armor of God." As an introductory to his sermon he spoke for some time on the military "preparedness" propaganda of the present time.

"I do not flatter myself," he said, "that I am able to discuss this question with some of the great minds who will give it consideration in congress, and who are now talking upon both sides. But I do not hold with either of the extremes of the big navy men or the pacifist type.

"When I hear of defense plans, I cannot but ask myself constantly from whom we must defend ourselves. Whom has the United States to fear? I cannot see that any of the European nations will be able to attack the United States within a generation.

"Neither do I believe that a system of roads so that every farmer in his Ford could get to the coast in a few days would be sufficient protection. It is the duty of every man and every nation to protect itself, not that he is dangerous but that the other fellow may be.

"Our fire department may not have a call for thirty days, but if kept in readiness it may save the business blocks from destruction on the thirty-first day. I lock my house every night, not that I have anything valuable, but lest some thief might think that I have. That is my idea of preparedness, that we have the door locked against invaders."

In the body of his sermon Mr. Holliday urged a spiritual preparedness of the same sort against temptation and for opportunity. He said many men went to hell not because of any great sins necessarily, but simply because they were not prepared at death for heaven.

MR. BAKER RESIGNS

AS MEMBER OF THE STATE HOSPITAL BOARD OF MANAGERS.

LINDSAY AND PENNEY

Also Hand in Their Resignations—Too Much Outside Interference in the Management of Institution.

George B. Baker, president of the Real Estate bank of this city, resigned this morning as a member of the board of managers of state hospital No. 2, at St. Joseph. His resignation was sent to Governor Major by wire.

Two other members of the board of managers also resigned, being Ernest M. Lindsey of St. Joseph, the Republican member who was appointed by Governor Major about a year ago, and Smith Penney, also of St. Joseph. Both Messrs. Lindsay and Penney resigned at the request of the governor.

It has been known for some time that there was too much outside interference in the management of the institution, and the attempt of the governor, so it is said, of trying to inject politics. The institution is reported to be in a deplorable state. Many of the appointees of the hospital were selected at the request of the governor.

Mr. Baker has been a member of the board for over two years, having been appointed by Governor Major. He gave a great deal of his time to the management of the institution, and took a great interest in his work.

The following is Mr. Baker's resignation:

"October 25, 1915.—Governor Elliott W. Major, Jefferson City, Mo.: Having seen your recent letter requesting the resignation of Smith Penney of the asylum board, and feeling that the letter unjustly reflects on the whole board, and having served with Messrs. Penney and Lindsay as members of the board and from the close relations of these gentlemen and myself as fellow members, and having the utmost confidence in the honor and integrity of each of these gentlemen, and feeling that they, as members of the board, have conscientiously labored to conduct the business of the asylum along the line of honest business principles, and realizing that these gentlemen and myself have been in strict accord and harmony in our opinion as to the management of the asylum, I feel that the objections to these gentlemen contained in your letter apply with equal force to my conduct as a member of the board

"Therefore, I fell it incumbent on me to resign as a member of this board, and I hereby tender to you my resignation as a member of the board of state hospital No. 2, to take effect immediately. GEORGE B. BAKER."

BIG FIRE AT CLEARMONT

GRAIN ELEVATOR AND 60 TONS OF COAL BURNED.

Burlington Railroad Loses Two Box Cars—D. W. Carter of Iowa and A. H. Garrett Lumber Co. Losers.

The grain elevator at Clearmont, together with about $1,000 worth of grain, owned by D. W. Carter of Pepburn, Ia., and between 50 and 60 tons of coal belonging to the A. H. Garrett Lumber company of Clearmont, was burned about 2:30 o'clock Sunday morning. One box car of the Burlington was also burned and another one filled with railroad ties was partially destroyed.

The origin of the fire is unexplainable. No one had been in the elevator since early in the evening, and no fire had ever been in the place. The building was erected eighteen months ago.

The fire was discovered by some section men who were at work there and who were sleeping at nights in a box car. They at once notified the telephone operator and others who worked to save what property they could. The elevator was almost completely destroyed before the fire was noticed.

CORY AND PAUL GREAT LEADERS

MEETING AT CHRISTIAN CHURCH OF MIGHTY POWER.

MEN AND MILLIONS BORN OF PRAYERS

Mrs. F. P. Robinson Sings Two Songs by Request of Mr. Cory—Spirit of God and War Contrasted.

Two men of national prominence in religious affairs and acknowledged as leaders in the new Republic of China were in Maryville yesterday. Alexander Paul, who first conceived of the Men and Millions movement, and "Abe" Cory, the Maryville boy who has made it successful and the greatest thing ever undertaken by a Protestant denomination, spoke yesterday. The other speakers were Mrs. Mary Lawrence on home missions and Dr. H. M. Bell, president of Drake University who dwelt upon educational needs.

No public collection was taken but private conferences will be held all this week. The minimum pledge which the organization will take is $500 for a period of five years.

A meeting of the women of the church was held this afternoon. A luncheon will be served to the young men of the church between the ages of fifteen and twtnty-five Wednesday afternoon at 6 o'clock which will be followed by a general meeting of all the men of the church.

At the services yesterday morning Mrs. F. P. Robinson sang two solos by special request of Mr. Corey. The first was "The Home Land." The second sung while all were bowed in prayer at the onclusion of the sevrice was "Ere you left your room this morning, did you think to pray?"

Mr. Paul, the first speaker, is the missionary who organized 7,000 famine sufferers into a labor army and built a dike which saved hundreds of thousands of acres from flooding in China. He conceived of the great Men and Millions Movement. Mr. Cory frankly admitted that he thought that the typhoid had gone to Paul's head when he first mentioned the subject as Mr. Paul was just convelscing at the time.

"Give 'Em Hell.

Rev. Paul was on his way back to China after a leave of absence to visit his parents in a village in Ireland. He said that 90,000,000 millions of the Orient were just coming to feel themselves and that the next great crisis must come among those people. Will they accept Christ along with civilization or will they do like Japan and accept all modern ideas and customs but reject Christianity?

Mr. Paul said that just before he left Ireland a month ago, he went up to Belfast to see the troops depart. As a train would pull out the crowds would cheer under a yell leader. After a "Good-bye Fellows" the leaders would say "One, two, three," and from the throats of tens of thousands would go a bellow or hate, "Give 'em Hell."

"A few days later," Mr. Paul said, "I went home to say my last good-ye to my parents whom I shall never see again as each is more than 80 years old. Putting their arms about me, they said: 'Good-bye, Alec, we are giving you back to China. Go back. Give them Christ."

Announcement.

We are authorized to announce Robert I. Young of Buchanan county, as a Democratic candidate for Congress from the Fourth district subject to the primary election to be held August 8, 1916.

Republican leaders seem to be getting little comfort and lots of uneasiness out of these big get-together meetings that are being held by Missouri Democrats.

Those Arizona people who want to recall their governor would better go slow. Governor Hunt is an ex-Missourian and will want to be shown before he gives way.

When the next campaign is on and the Republicans start in trying to stampede the voters back to the protective tariff doctrine they are likely to run against several large sized snags. One of these will be the opposition of those far-sighted manufacturers who have found how valuable foreign markets are and who have sense enough to know that they cannot be retained if we return to the foolish policy of barring other nations from trading with us by erecting a high tariff wall. Western farmers could not buy eastern manufacturers if eastern manufacturers did not buy their farm products, and the world won't buy our stuff unless we are willing to make fair exchange with them.—The Commoner.

OLD KENTUCKY IS RICH AND FRUITY

This Delicious Chew Has the Wonderful Flavor of Choicest Burley Leaf

MADE BY MODERN METHODS

If you don't chew tobacco you simply cannot get the full measure of enjoyment out of it.

A good chew, with its juicy richness and appetizing flavor, is an aid to digestion. That means it's beneficial to the whole system. And the best chew is *plug* tobacco, the closest-to-nature form into which tobacco leaf can be made.

Nature's own sweetness is in every juicy chew of Old Kentucky. You never before tasted such mellow richness—you can't get so much deliciously sweet flavor out of any other chew.

The rich leaf for Old Kentucky is selected, re-selected, picked over by hand, stemmed by hand, pressed into pure, luscious, golden-brown plugs by the most wholesome modern methods.

Try a 10-cent plug of Old Kentucky. You'll find it wonderfully tasty, wholesome and appetizing—a rich, mellow chew that exactly suits your taste.

Old Kentucky No. 1.

CORY AND PAUL GREAT LEADERS

(Continued from page 1.-

Scarcely an eye in the house was dry as Mr. Paul so telling showed the difference between missions and war between the spirit of God and that of Mars.

Mr. Cory told of how he opposed the movement in his infancy. He said that the devil did not get many men any more by their being drunkards and adulterers. Respectability alone prevented that now. But Satan does get them by just telling them to go slow.

Born of Great Intercession.

"It is hard for me to stand before this people and see boys with whom I grew up," said Mr. Cory. "In other men I see gray hairs on heads which I have reverenced all my life. You all know that I am very human with frailties. But how I long that you may really know that there is no taint of pietism when I say that this movement which I represent was born of God out of great intercession.

"The church must quit playing at little things. The men who will borrow money to make himself rich ought to borrow money to enrich the kingdom of God. There is no such thing as a cool, hard-header business man. That kind of men don't get great success. Men of vision and imagination succeed.

"R. A. Long, the man who gave a fillion dollars, was tithing when he was getting $28 a week as a lumber clerk. And he tithes his property yearly as well as his income."

Mr. oCry spoke at length upon his experiences in the Men and Millions movement. He said that we are living in a great and terrible age. A man who is alive must face the responsibity of that life.

The church was decorated with mottoes and maps. Some of the striking ones were: "God wants no tyours but you. Not how much of my money shall I give to God but how much of God's money shall I keep for myself. This is the only generation we can reach. The first work of the whole church is to give the gospel to the whole church."

Pearl Roach of Maryville was on the St. Joseph market Saturday.

BIG BURLINGTON ENGINES

Locomotives Ninety Feet Long and as High as Bridges Permit Being Built.

The locomotives used today in the through passenger service, are required to haul trains which are often as heavy as the freight trains of a comparatively few years ago. These trains are hauled at high speeds, on exacting schedules. Locomotives for such service must not only be of sufficient size to develop the required power; they must also be economical in fuel and water consumption, and must not deliver destructive blows to the tracks and bridges when running at high speeds. An efficient self-propelled power plant is required, and high engineering skill is necessary to produce it.

The new S3 engines just placed in service by the Burlington, represent the latest development of the Pacific type for heavy passenger service. These engines appear to be the embodiment of power and strength and impress one by their wonderful size. Built as high as they can be and negotiate bridges, the parts above the boiler on the outside are made as low as possible to obtain the results needed and remain within the prescribed height to meet bridge requirements. The whistle protrudes from the side of the dome instead of the top on account of the height of the boiler. The stack is squat and broad and the bell while of average size, seems smaller because of the massiveness of the boiler.

These engines are of the super heater type, thus providing fuel economy and a lesser amount of steam than does by the older and more common type of engines using the saturated steam system. The boiler pressure, because of the super heater construction, is but 180 pounds of steam ,an amount that many of the smaller engines carry A number of new and late devices for conservation of motive power, greater speed, etc., are seen on these engines.

These monsters are over 75 feet long and, ready for service, weigh upward of half million pounds. A six foot man, wearing a silk hat, could stand erect in the little end of the boiler and a good-sized barrel could be placed inside of one of the immense cylinders.

These great power units were built by the Baldwin Locomotive Works, Philadelphia, to pull the Burlington's crack limiteds. No one knows how fast they will run. But one of them will draw a long heavy train of Pullmans at a sustained speed of 60 miles an hour, without much more concern than a youngster pulls a toy wagon down the street. There is ample reserve power to insure the punctual maintenance of schedules, even under adverse weather conditions.

Prepare Bees For Winter.

Remove honey at once.

Leave plenty of winter food.

Don't spill or smear honey about the hive. It leads to robing.

Don't chill the bees while clearing the supers. Choose warm days for this work.

Wrap each hive with a layer of tar paper or other heavy, wind-proof material.

If any supers are left on the hives, remove the sections and fill the space with a bag of dry leaves.

Set the hives on a south slope and do not leave the front high enough to let snow or water blow or run in.

The bee house or cellar is rarely or never used as far south as Missouri. A strong swarm properly prepared in a good hive and properly fed will get through the winter well.—L. Haseman University of Missouri, College of Agriculture.

WABASH FILES CHARTER

E. A. Kearney of St. Louis Heads New Company—Capital Stock is 143 Millions.

Indianapolis, Ind., Oct. 23.—A charter for the new Wabash Railroad company, the purpose of which is to take over all the Wabash railroad property now in the hands of receivers, was filed with the secretary of state here today. The capital stock of the new company was placed at $143,460,000, and a fee of $143,460 was paid to the state.

At a meeting of the directors held here Edward F. Kearney of St. Louis, president and co-receiver, was elected president of the new company. The directors are: Samuel Armstrong, H. Bruce Campbell, Robert Goelet, Lawrence Greer, Edward F. Kearney, W. C. Maxwell, George W. Murray, Robert N. Neilson, John C. Otteson, Winslow S. Pierce, Lyman Rhodes, William V. Stuart and James E. Taussig, Allison E. Stuart and Henry Rogers Winthrop. William V. Stuart of Lafayette, attorney for the company in Indiana, filed the charter.

W. C. Maxwell of St. Louis, the director named above, is general traffic manager of the Wabash. John C. Otteson is secretary of the company, with office in New York. James E. Taussig is assistant to the president, with office in St. Louis.

State May Interfere.

Jefferson City, Oct. 23.—The question whether the new Wabash railroad corporation, which it was announced would incorporate today in Indianapolis, can take possession and operate its property in Missouri under the terms of a law enacted by the legislature in 1913, has been under discussion here. That legislature enacted a law requiring all railroads operating in Missouri to incorporate in this state. Governor Major, before signing the law, put an executive construction on it, to the effect that it did not apply to railroads already operating in Missouri, but only to future railroads. He approved the law April 16, 1913.

It is suggested here that if the Wabash company is a ne wone organized to take over the old Wabash properties, that the Missouri law might prove an obstacle unless declared unconstitutional.

SERVICES TO CONTINUE.

Revival at Palestine Church to Last Another Week—Has Veen Very Successful.

After preaching three weeks at Palestine church, twelve miles southwest of Maryville, Elder S. D. Harlan, encouraged by unanimous vote of the people of the community last night, decided to continue another week. Fifteen have been added to the church, nearly all of whom were boys and young men of the Sunday school. Those who have kept the Sunday school going the past three years and have sometimes asked themselves the question, "Does it pay," now feel greatly encouraged and say, "It is surely worth while."

Baptismal services were conducted yesterday, song service was announced for 7:45 last night, but the church filled and the choir began to sing at 7:15. The church was packed and it is estimated that from 75 to 100 people had to remain outside. Twenty-seven automobiles lined up outside.

Great things are expected the coming week. The song service led by Theodore Snowberger adds much interest and enthusiasm to the meeting. Elder Harlan preached with his coat off, preached a powerful sermon on "The New Testament Church." His subject for tonight is "The Prodigal Son."

Anthony-Callahan.

A very simple wedding took place at 3 o'clock Saturday afternoon at the home of Mr. and Mrs. Harold Ewing, when Mrs. Ewing's niece, Miss Murriel Esther Anthony, became the bride of Perry Lee Callahan of St. Joseph. The Rev. G. S. Cox, pastor of the First Methodist church read the marriage ceremony, which was witnessed by Mr. and Mrs. R. C. Anthony and sons, Edwin, Frank, Paul and Herbert, Mrs. O. G. Weaver of St. Joseph, mother of the groom, Miss Kate Martin, Mr. and Mrs. H. Schoonover and children, Earl, Mabel and Leora, and Mr. and Mrs. Ewing. Mr. and Mrs. Callahan left on the afternoon train for St. Joseph, where their cottage is ready for occupancy.

The bride is the only daughter of Mr. and Mrs. R. C. Anthony of this city. Mr. Callahan is employed as foreman of the St. Joseph Tent and Awning company.

For First "Mum" Bride.

One of the prettiest of the pre-nuptial courtesies being showered upon Miss Mildred Robinson, the daughter of Mr. and Mrs. Frederick Paul Robinson, who will be an October bride, was the tea given Saturday afternoon from 3 to 4 o'clock at the Elks club, by the "Mum" club. The occasion was one which carried with it much sentiment for the reason that the "Mum" club was formed here during the girlhood days of the bride's mother with herself and a small coterie of girl friends as members and Miss Robinson is the first "Mum" daughter to be a bride. The tea was given in the reception and tea room of the club house which was very attractive in decorations of white and green. White hydrangeas were used in the reception room and here the guests were received by Mrs. C. C. Graves, Miss Jennie Garrett, Mrs. William Johnston, Mrs. F. P. Robinson and Miss Robinson. The tea table was spread with a cluny cloth and in the center was an immense mound of shaggy white chrysanthemums. Mrs. James B. Robinson and Mrs. Charles T. Bell served, assisted by Miss Bertha Beal, Mrs. Luther Forsyth, Miss May Orear and Mrs. Ralph Eversole. At the conclusion of the tea, Miss Robinson was presented with an exquisite crystal table service, the gift of the "Mum" members and the men of the old crowd which included C. C. Graves, Luther Forsyth, Ralph Eversole and Paul Sisson. In presenting the gift, a toast, written by Miss Garrett, was read by Mrs. William Johnston of Seattle, Wash., a former member of the club who is here now on a visit. The toast is as follows:

"Here's to Mildred, the girl of the hour,
For whom many fond friends have given a shower.
Is it any wonder why she is so gay,
When 'tis only a week 'till her wedding day!
We always have loved her as one of our own,
And now that she is to have her new home
A crystal table service we wish to present,
From the old crowd club with good wishes sent.

S.S. LEAGUE FORMED

HINTS OF AGITATION FOR Y. M. C. A. MADE YESTERDAY.

WANT "GYM" DOWN TOWN

Committee on Rules and Organization to Report Next Sunday—Junior and Senior Teams.

The permanent organization of a Sunday school athletic league was assured at a meeting of the representatives of the various schools in the Commercial club rooms yesterday afternoon. The need of a Y. M. C. A. was hinted several times by those present, and such an eventuality may grow from the movement.

Those present were: Superintendent W. M. Westbrook, Baptist church; C. C. Bennett, First Methodist; W. E. Wakeman, Martin Lewis, Jr., and Rev. W. M. Case, Presbyterian; Ed Gray and B. A. Frost, Christian; I. B. Williams and Vernon Nash, Buchanan Street Methodist church.

I. B. Williams was made permanent chairman of the committee. Discussion of a place where basket ball games could be held was the first order of the day. It was voted to exhaust every possibility in the way of a building to be used for a gymnasium situated in the center of the city before entering any negotiations for the use of the Normal gymnasium.

B. A. Frost and C. C. Bennett were appointed a committee to investigate all the available buildings and to report on whether they were suitable and could be secured. In case such a gymnasium is found, little doubt is held but that the high school team would also use it.

Informal discussion developed the belief among some of the men that an organization similar to a Y. M. C. A. or a Young Men's Christian Association in fact might be organized to manage such a building and organization.

The delegates will go before their schools to ask for authority to form a permanent league. Meanwhile a committee working with a chairman will draw up tentative plans for the organization, including a constitution. The committee is W. E. Wakeman and Ed Gray, with Mr. Case in an advisory capacity.

Mr. Case had charge of a similar association in Caldwell, Idaho, and will be able to give valuable advice. One of the new developments of the discussions yesterday was the probability that junior teams for younger boys would be found desirable and necessary also.

The committee of the whole will meet again next Sunday afternoon in the Commercial club rooms, at which reports will be heard and a permanent organization entered into, subject to the ratification of the various Sunday schools.

All of the men on the committee will welcome any suggestions as to form of the organization, methods of reaching an eligibility list, referee problems and the like. The rules and tentative organization committee will meet tonight at 8 o'clock in the Commercial club rooms.

Provision will be made in the constitution for all kinds of athletics.

LARGE CROWD AT ALBANY.

Big Leaguers Attract 1,600 to Albany, Bethany Beating Stanberry 4-1.

A crowd of about twenty-five went from here yesterday to Albany, where Stanberry and Bethany met in another ball game, in which most of the players were big or ex-big leaguers. "Babe" Adams, leading pitcher of the Pittsburg Nationals, pitched the winning game for Bethany.

Pat Ragan of the Boston Braves was the loser because of his wildness. Joe Crips of the Kansas City Blues caught Adams. Bill Borden of the St. Louis Feds was one of the stars. Otto Williams, a former Cub, was another player, and Eddie Noyes, once a big leaguer, slapped out the only long hit, a three-bagger on Adams, and scored the only run for Stanberry on a passed ball a moment later.

The Albany town band furnished music for the day, which attracted fans from all over northwest Missouri. Almost all of the 1,600 were there in cars, and the auto show was almost as good as the ball game.

GOOD SOLOS AT CONCERT.

Miss Wray and Ed Rea Pleased Audience Yesterday.

The audience at the band concert yesterday were well pleased. So much so that they demanded several encores. Edward D. Rea gave the "Traumerei" upon the cello, and "The Rosary" as a return. He was forced to play it over again at its close. Miss Hilda Lahr was his accompanist.

Miss Nellie Wray's solos were also well received. She was accompanied by Miss Lucile Airy. In spite of the good weather, which kept many from attending, the size of the audiences is growing each Sunday afternoon.
